

**A SMALL COMPANY WITH BIG IDEAS®**

**Ta daahh!!!**

***(AS MUCH AS I HATE TO DO IT, SOMETIMES YOU MUST BLOW YOUR OWN HORN)***

Congratulations! You made the right choice. The patented **Roto-Split®** is the **#1** compact BX, MC & Flex cutter on the market. I should know, I invented it quite a few years ago. I wanted to add some lights to a room in my house and was told there was no tool to strip BX - "*just use a hacksaw*". I knew there had to be a better way and developed the **Roto-Split**. Many people told me I was crazy, that this thing would never sell. **Thank you for proving them wrong! \***

We've been refining the **Roto-Split** ever since, taking pride on **selling quality innovative products at the right price!** We are equally proud to be a small business and a pioneer in the field. Most electricians appreciate what it takes to run a small business. It's a great feeling to know that as our record shows, we do not have the need to copy anybody. **We just come up with original time-saving products to make your work easier.** Please read the other side of this page and look at a sampling of some of our new products. Check out our web site at [www.SeatekCo.com](http://www.SeatekCo.com) or call us to request our new **General Catalog** and see why we're called the **Small Company With Big Ideas!**

**Now to celebrate our 3rd decade in business, I want to introduce you to our new policy of a lifetime guarantee.** Any defective part on your new **Roto-Split** cutters will be replaced for free (except replacement blade). You pay only the shipping charges. I guarantee this personally!

**I would be glad to hear your comments about our products. To compensate you for your trouble, I will send you free of charge our new Blue Sapphire Blade for the Roto-Split (one per customer).**

**Write to:** Seatek Company  
Attn: Lucien C. Ducret  
392 Pacific Street

Since we are not a faceless corporation or a division of a megabuck multinational conglomerate you can even call, fax or e-mail [LDucret@Seatekco.com](mailto:LDucret@Seatekco.com) your comments.

*\* Lucien C. Ducret is the holder of 25 U.S. and Foreign Patents mostly in the field of armored cable cutting technology*

**SATISFACTION OR YOUR MONEY BACK!  
SUPPORT SMALL BUSINESS. TELL YOUR FRIENDS ABOUT OUR QUALITY PRODUCTS.**

**THE INVENTOR OF THE MOST WIDELY USED BX CABLE CUTTER! OVER 1/2 MILLION IN USE TODAY!**

# ONLY SEATEK, THE EXPERT IN ARMORED CABLE CUTTING TECHNOLOGY OFFERS 10 MODELS OF BX, MC & FLEX HAND TOOLS AND MACHINES TO CHOOSE FROM

## Features of the RS-101A

- FIRST** hip pocket BX cable cutter ever invented with open channel guide.
- Sleek design**, no bulky clamping system, compact and lightweight (only 15 oz.) Proven reliability, field tested for many years.
- Fastest BX cutter on the market**, under 5 seconds to clamp, cut and unclamp cable. Patented quick-clamping features, molded clamping lever hinge support and reinforced casting.
- No need to crank backwards** to release cable. Cable pops right out after hand pressure is released, no adjustment needed after initial setting. The spring loaded clamping lever self-adjusts for #14 to #12 cables and gives over 100 lbs. of clamping force.
- Captive clamping hardware**, no parts to get lost. Easy side loading of the cable, no need to know in which direction to load and unload. New ergonomic curved handle and blade storage cartridge in the knob (holds up to six blades).
- Unique close quarter cutting action** by moving the crank handle back and forth! Factory set positive blade stop prevents damage to wiring inside casing, cuts BX from #14-2 to #10-4 (even #8-1) and 3/8 Greenfield. Adjustment screw for thin wall MC cables.
- Easy blade replacement** by removing hex nut with adjustable wrench. Top casting swings out for better blade clearance. Fully enclosed blade guard for safety. Special opening for blade lubricating stick.
- Easy cranking action** with curved offset crank handle for better hand clearance, comfortable ergonomic crank knob to keep your fingers away from crank handle. Unique blade crankshaft with self tightening through bolt. Blade rests on washer for long life.
- Quality throughout**, tough epoxy enamel paint for durability and attractive look, rust proof nickel plated handle and clamping lever.
- Most parts easily replaced:** Part kit available, #101-106 consisting of shaft, nut & screws. New curved handle assembly #101-110 with blade storage cartridge in the knob. Can be used to update older model tools.
- Lifetime guaranty** since 1990, except for blade replacement any defective part will be replaced free of charge - you pay only the one way shipping charge to the factory.

<b>RS - 101 A L</b>	Same as above but equipped with B-107 blade for aluminum casing.
<b>RF - 120 A</b>	Same as RS-101A but 1/2" & 3/4" Flex & large MC cables.
<b>RF - 120 B</b>	Combines Roto-Split and Roto-Flex in one unit, thanks to swinging adapter.
<b>RS - 101</b>	Original Roto-Split with alloy thumb screw, only half a turn to clamp or unclamp the cable.
<b>RF - 170</b>	Giant size for MC cables up to 1.85 O.D. Flex from 1/2" to 1-1/2" trade size.

## SOME OF OUR PRODUCTS IN STOCK FOR IMMEDIATE DELIVERY
