

"ZIP-STRIPPER" UF CABLE STRIPPER

**Strips 14-2 and
12-2 UF Cable**

**Safest, fastest
way to strip
UF Cable**

**YOU'VE NEVER SEEN ANYTHING LIKE IT!
THIS IS THE FIRST PRACTICAL UF CABLE STRIPPER WHICH
TRANSFORMS A DRUDGERY INTO A SNAP**

Just introduce the UF cable at an angle into the **ZIP-STRIPPER**[®] up to the length to be stripped, then simply lower the cable and pull the tool out, flip the UF cable over, repeat the operation and **PRESTO** your UF cable is sliced through and through. Now you only have to peel back the outer jacket and clip it with your dikes. The ground wire can be either stripped like a regular wire or stripped back all the way.

For Romex[®] use the same easy procedure but slice the cable only **ONCE!** Also works on some 10-2 Romex[®].

OTHER FEATURES

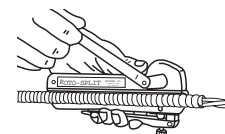

- The **Zip-Stripper**[®] is equipped with adjustable guide plates to accommodate different cable sizes from 14-2 to 12-2 insuring perfect alignment of the cable.
- The cutting blade is laterally adjustable by means of the small tapered knob to compensate for variation of UF cable construction.
- In addition the blades depth of cut can be changed using a movable insert permitting the stripping of special flat jacketed cables.
- The blade is easily replaced by opening the housing. Storage for extra blades is provided inside.
